! IMPORTANT SAFETY INSTRUCTIONS

! WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

! CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

! WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

! WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! Adding the FCA105 wall plate to the XSM/XTM wall mount provides additional support but does not change the weight capacity listed for the mount.

! WARNING: Use this mounting system only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

! WARNING: Never operate this mounting system if it is damaged. Return the mounting system to a service center for examination and repair.

! WARNING: Do not use this product outdoors.

TOOLS REQUIRED FOR INSTALLATION

PARTS

Assembly And Installation

Installing FCA105 Wall Plate to XTM/XSM Mount

1. Remove caps from one side of mounting rails on XTM/XSM mount. (See Figure 1)

Figure 1

2. Slide FCA wall plate (A) onto XTM/XSM mount rails. (See Figure 2)
3. Reinstall caps onto mounting rails. (See Figure 2)

Figure 2

4. Position three wall plates 16" apart from each other on rails. (See Figure 2)

Figure 3

Installing to a Wood Stud Wall

1. Determine the center of the display, and where it should be located on the wall.
2. Locate the appropriate three 16" studs at the selected location.
3. Line up the notches on mount with center of screen marking to determine vertical center. (See Figure 4)
4. Measure up 7-1/2" (190.5mm) from the center point to mark location of the upper mounting slots.

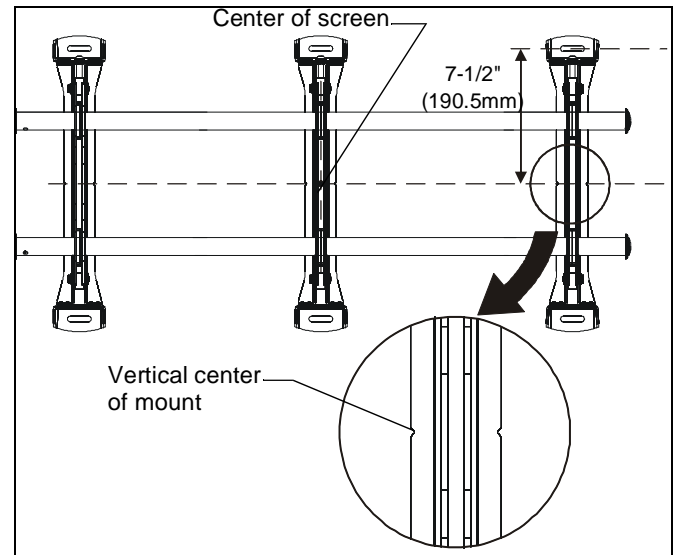

Figure 4

- Using a level, mark the wall on each stud to attach the mount through the upper mounting slots. (See Figure 5)

WARNING: ELECTRICAL SHOCK HAZARD! CUTTING OR DRILLING INTO ELECTRICAL CORDS OR CABLES CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surface is free of electrical wires and cables before drilling or installing fasteners.

WARNING: EXPLOSION AND FIRE HAZARD! CUTTING OR DRILLING INTO GAS PLUMBING CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surface is free of gas, water, waste, or any other plumbing before cutting, drilling, or installing fasteners.

- Drill one 7/32" pilot hole in each stud.
- Use three 5/16 x 2-1/2" lag bolts (D and lag bolts shipped with mount) and three 5/16" flat washers (C and washers shipped with mount) to attach top of mount to wall. (See Figure 5)

Figure 5

- Mark the attachment points for the lower mounting slots, making sure the attachment points are located on the studs. (See Figure 5)
- Drill 7/32" pilot holes at markings for lower mounting holes. (See Figure 5)
- Use three 5/16 x 2-1/2" lag bolts (D and lag bolts shipped with mount) and two 5/16" flat washers (C and washers shipped with mount) to attach the mount to the wall through the lower mounting holes. (See Figure 5)
- Slide rails to approximate center of screen location.

Installing to a Concrete Wall

- Determine the center of the display, and where it should be located on the wall.
- Line up the notches on mount with center of screen marking to determine vertical center. (See Figure 4)
- Measure up 7-1/2" (190.5mm) from the center point to mark location of the upper mounting slots. (See Figure 4)
- Using a level, mark the wall through all three upper mounting slots. (See Figure 6)

WARNING: ELECTRICAL SHOCK HAZARD! CUTTING OR DRILLING INTO ELECTRICAL CORDS OR CABLES CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surface is free of electrical wires and cables before drilling or installing fasteners.

WARNING: EXPLOSION AND FIRE HAZARD! CUTTING OR DRILLING INTO GAS PLUMBING CAN CAUSE DEATH OR SERIOUS PERSONAL INJURY! ALWAYS make certain area behind mounting surface is free of gas, water, waste, or any other plumbing before cutting, drilling, or installing fasteners.

- Drill one 5/16" pilot hole at each marking.
- Install three anchors (B and anchors shipped with mount) into each pilot hole using a hammer. (See Figure 6)
- Use three 5/16 x 2-1/2" lag bolts (D and lag bolts shipped with mount) and two 5/16" flat washers (C and washers shipped with mount) to attach top of mount to anchors in wall. (See Figure 6)
- Mark the attachment points for the lower mounting slots. (See Figure 6)
- Drill one pilot hole at each marking for lower mounting holes. (See Figure 6)
- Install three anchors (B and anchors shipped with mount) into each pilot hole using a hammer. (See Figure 6)
- Use three 5/16 x 2-1/2" lag bolts (D and lag bolts shipped with mount) and three 5/16" flat washers (C and washers shipped with mount) to attach the mount to the wall through the lower mounting holes. (See Figure 6)
- Slide rails to approximate center of screen location.

Figure 6

See XSM/XTM Installation Instructions to complete installation.
