! IMPORTANT SAFETY INSTRUCTIONS

! WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

! CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

! WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

! WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! Adding the FCA115 wall plate to the XSM1U/XTM1U wall mount provides additional support but does not change the weight capacity listed for the mount.

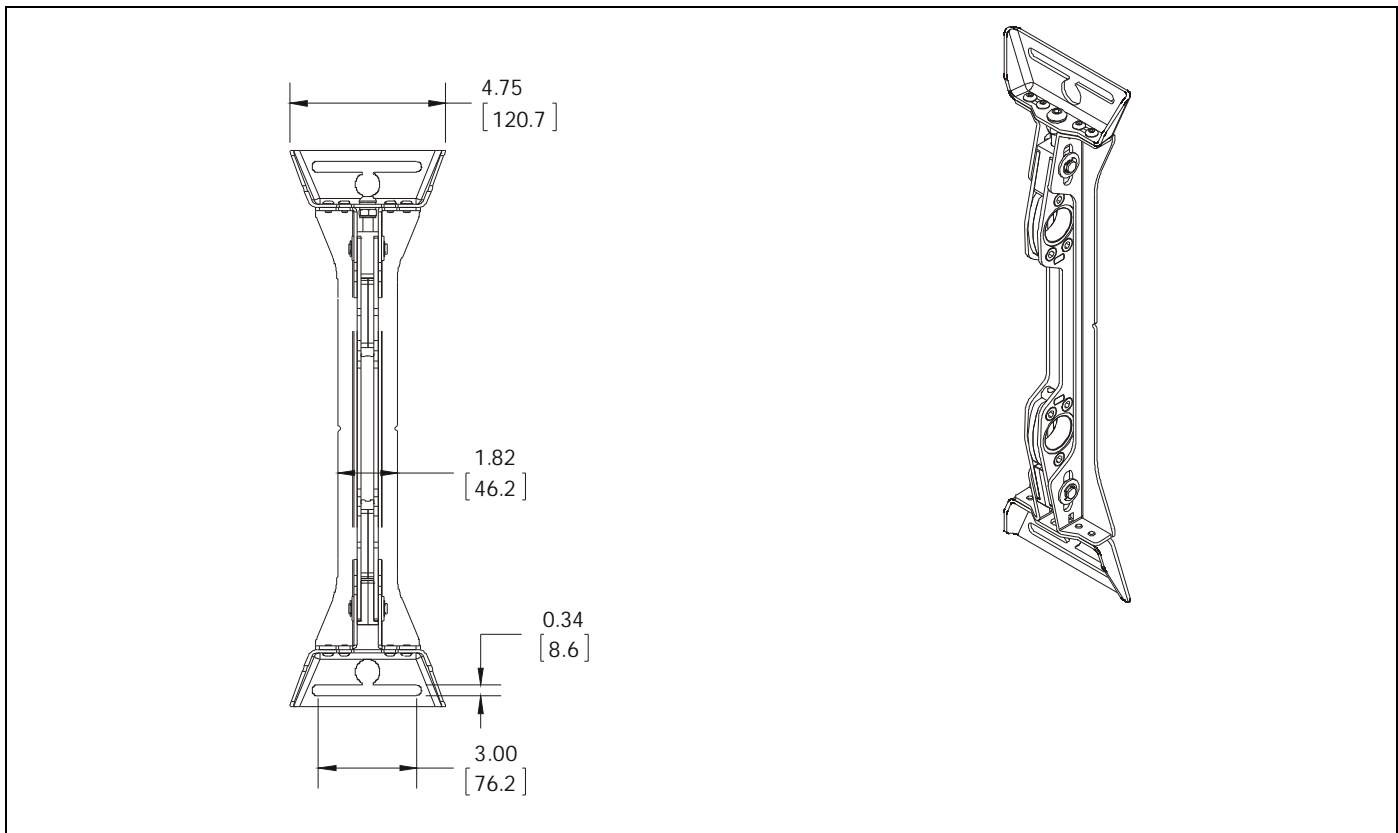

! WARNING: Use this mounting system only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

! WARNING: Never operate this mounting system if it is damaged. Return the mounting system to a service center for examination and repair.

! WARNING: Do not use this product outdoors.

TOOLS REQUIRED FOR INSTALLATION

PARTS

Assembly And Installation

Installing FCA115 Wall Plate to XTM1U/XSM1U Mount

1. Remove caps from one side of mounting rails on XTM1U/XSM1U mount. (See Figure 1)

Figure 1

2. Slide FCA wall plate (A) onto XTM1U/XSM1U mount rails. (See Figure 2)
3. Reinstall caps onto mounting rails. (See Figure 2)

Figure 2

4. Position three wall plates 16" apart from each other on rails. (See Figure 3)

Figure 3

Installing to a Wood Stud Wall

1. Determine the center of the TV screen, and where it should be located on the wall.
2. Locate the closest stud to the selected location.

NOTE: Center of display should be located either directly over or near a stud.

3. Line up the notches on mount with center of screen marking to determine vertical center. (See Figure 4)
4. Measure up 8" (203mm) from the center point to mark location of the upper mounting slots.

Figure 4

- Using a level, mark the wall on each stud to attach the mount through the upper mounting slots. (See Figure 5)
- Drill one 7/32" (5.5mm) pilot hole in each stud.
- Partially install three 5/16 x 2-1/2" flanged lag bolts (B) into pilot holes but do not tighten to wall.
- Hang mount, aligning upper mounting slots over lag bolts and adjust side-to-side for proper location.
- Place one slotted washer (D) over each flanged lag bolt. (See Figure 5)
- Tighten lag bolts to secure mount to wall at upper mounting slots.
- Mark the attachment points for the lower mounting slots, making sure the attachment points are located on the studs. (See Figure 5)
- Drill 7/32" (5.5mm) pilot holes at markings for lower mounting holes. (See Figure 5)
- Use three 5/16 x 2-1/2" flanged lag bolts (B) and two 5/16" slotted washers (D) to attach the mount to the wall through the lower mounting holes. (See Figure 5)
- Slide rails to approximate center of screen location.

Figure 5

Installing to a Concrete Wall

- Determine the center of the TV screen, and where it should be located on the wall.
- Line up the notches on mount with center of screen marking to determine vertical center. (See Figure 6)
- Measure up 8" (203.2mm) from the center point to mark location of the upper mounting slots. (See Figure 6)
- Using a level, mark the wall through both upper mounting slots. (See Figure 6)

Figure 6

- Drill one 3/8" x 3-1/2" (9.5mm x 88.9mm) pilot hole at each marking. (See Figure 6)
- Install an anchor (C) into each pilot hole using a hammer, making sure that the anchor is flush with the wall. (See Figure 6)
- Partially install three 5/16 x 2-1/2" flanged lag bolts (B) into pilot holes but do not tighten to wall. (See Figure 6)
- Hang mount, aligning upper mounting slots over lag bolts and adjust side-to-side for proper location.
- Place one slotted washer (D) over each flanged lag bolt. (See Figure 6)
- Tighten lag bolts to secure mount to wall at upper mounting slots.
- Mark the attachment points for the lower mounting slots, making sure the attachment points are located on the studs. (See Figure 6)
- Drill 3/8" x 3-1/2" (9.5mm x 88.9mm) pilot holes at markings for lower mounting holes. (See Figure 6)
- Use three 5/16 x 2-1/2" flanged lag bolts (B) and two 5/16" slotted washers (D) to attach the mount to the wall through the lower mounting holes. (See Figure 6)
- Slide rails to approximate center of screen location.

See XSM1U/XTM1U Installation Instructions to complete installation.
