IMPORTANT SAFETY INSTRUCTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer’s responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component. The K1C1KRA204/K1C2KRA204 can ONLY be mounted onto desks measuring between 3/4” and 4” in depth!

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the combined weight of all components located between the K1C1KRA204/ K1C2KRA204 up to (and including) the display does not exceed 25 lbs (11.34 kg) per arm. Use with products heavier than the maximum weight indicated may result in collapse of the mount and its accessories causing possible injury.

WARNING: Use this mounting system only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

WARNING: Never operate this mounting system if it is damaged. Return the mounting system to a service center for examination and repair.

WARNING: Do not use this product outdoors.

TOOLS REQUIRED FOR INSTALLATION

![Tools Diagram]

- 3/16" (included)
- 1/8" (included)
- #2

PARTS

![Parts Diagram]

- A (1) [K1C1OFB215 assembly]
- B (4 or 8)* M4x14mm
- C (4 or 8)* M4x25mm
- D (4 or 8)* M10x5.3x10
- E (1) [grommet bracket]
- F (1) 5/16-18 x 5"
- G (5) [rubber feet]
- H (1) 3/16"
- J (1) 1/8"

* 4 for K1C1KRA204, 8 for K1C2KRA204
Assembly And Installation

Assembly to Desk

1. Affix five rubber feet (G) to underside of column plate of assembly (A). (See Figure 1)

2. Locate a flat surface (thickness of 3/4" minimum to 4" maximum) on which to mount the column plate.

3. If mounting hole does not already exist on desk, drill mounting hole in desk at desired mounting location.

4. Position mount on desk so that center hole of column plate is centered over grommet hole. (See Figure 2)

5. Insert 5/16-18 x 5” bolt (F) through grommet bracket (E), grommet hole and thread into center hole on underside of column plate. (See Figure 2)

6. Tighten 5/16-18 x 5” bolt (F) until grommet bracket (E) is tightened against underside of desk and column mount is securely mounted to desk. (See Figure 2)

Display Installation

1. Remove quick release faceplate from mount by pressing quick release tab and sliding faceplate off mount. (See Figure 3)

   ! WARNING: Only remove display from mount when the display can be lifted up from the mount! DO NOT remove display unless the display is in the upright position! See Display Removal section for details.

2. Carefully place display face down on protective surface.

3. Connect faceplate to display

   For flush mounting hole installation:
   • Using Phillips screwdriver, carefully install four M4x14mm screws (B) through corresponding holes on faceplate and into the mounting holes on the display. (See Figure 4)
For recessed mounting hole installation:
- Place four spacers (D) on top of mounting holes on back of display. (See Figure 5)
- Using Phillips screwdriver, carefully install four M4x25mm screws (C) through corresponding holes on faceplate, spacers (D) and into the mounting holes on the display. (See Figure 5)

4. Position display with faceplate attached above mount. (See Figure 6)
5. Slide faceplate onto mounting head until quick release tab clicks into place. (See Figure 6)

Figure 5

Adjustments

Head Tilt Adjustment
1. Adjust head tilt to desired tilt position. (See Figure 7)
2. Adjust head tilt tension screw to change the adjustment tension. (See Figure 7)

Height Adjustment

CAUTION: OVERTENSIONING THE HEIGHT-ADJUSTMENT TENSION SCREW MAY CAUSE DAMAGE! Do NOT over-tighten height-adjustment tension screw when adjusting tension for lighter or heavier displays.
1. Adjust arm height to desired level. (See Figure 7)
2. Open cable management cover on upper arm to expose height-adjustment tension screw. See Cable Management section for details.
3. Use 1/8" hex key (J) to adjust height-adjustment tension screw to change adjustment tension. (See Figure 7)

NOTE: Turn clockwise to reduce tension for lighter displays and counter-clockwise to increase tension for heavier displays.
4. Close cable management cover on upper arm. See Cable Management section for details.

Pivot Adjustment
1. Adjust pivot position as desired. (See Figure 7)
2. Use 3/16" hex key (H) to adjust pivot point tension screws to change pivot adjustment tension. (See Figure 7)

Figure 6

Figure 7
Column Height Adjustment
1. Loosen column adjustment knob. (See Figure 8)
2. Adjust height to desired level. (See Figure 8)
3. Tighten column adjustment knob. (See Figure 8)

Cable Management
1. Use screwdriver to unhinge tab on either end of cable management cover on upper arm. (See Figure 10)
2. Slide screwdriver along edge of cover until remaining tabs are unhinged and cover is in the “open” position. (See Figure 10)

WARNING: Only remove display from mount when the display can be lifted up from the mount! DO NOT remove display unless the display is in the upright position! See Display Removal section for details.

Portrait Adjustment
1. The monitor may be adjusted 90 degrees in either direction in order to provide a portrait view of the monitor. (See Figure 9)

IMPORTANT!: Be sure to leave enough slack in the cables near display and arm joint to allow for full arm articulation!

3. Route cables through cable management channels. (See Figure 11)

Figure 8

Figure 9

Figure 10

Figure 11

3. Route cables through cable management channels. (See Figure 11)

IMPORTANT!: Be sure to leave enough slack in the cables near display and arm joint to allow for full arm articulation!

4. Close cable management covers on monitor arm. (See Figure 11)

5. Repeat Steps 1-4 for lower arm.
Display Removal

**WARNING:** Only remove display from mount when the display can be lifted up from the mount! DO NOT remove display unless the display is in the upright position! (See Figure 12)

1. Make sure display is in the upright position.
2. Remove quick release faceplate from mount by pressing quick release tab and sliding faceplate off mount. (See Figure 12)
