
INSTALLATION INSTRUCTIONS

Medium Flat Panel

Universal Interface Bracket (MSP-MSBTW1)

The MSP-MSBTW1 interface bracket functions as the universal mounting solution for medium flat panel displays.

The MSP-MSBTW1 is compatible with a multitude of medium flat panel displays that have different mounting hole-patterns (refer to Table 2 on page 5).

The MSP-MSBTW1 is shipped assembled with several parts bags that include spacers for recessed mounting applications and a variety of attachment screws in different lengths.

The mounting buttons that attach to the MSP-MSBTW1 interface bracket are installed in the 200mm x 200mm hole pattern. The mounting buttons are coupled with the teardrop shaped slots on the specific Mid-sized mount. The latching flag on the mount is used to lock the display in place. This mounting method is called the Q-Latch™ mounting system. Mounting, locking, and removing your display in place is simple, safe, and easy, particularly when maintenance is necessary.

MSP-MSBTW1

BEFORE YOU BEGIN

- **CAUTION:** To prevent damage to your monitor and MSP-MSBTW1, which could affect or void the factory warranty, thoroughly study all instructions and illustrations before you begin to install the mount. Pay particular attention to the Warnings and Cautions in this document.
- Refer to “WEIGHT SPECIFICATIONS” on page 2 for the maximum weight to be installed on the MSP-MSBTW1.
- If you have any questions about this installation, contact Chief Manufacturing at 1-800-582-6480 or 952-582-6480.

IMPORTANT WARNINGS and CAUTIONS!

- WARNING** A **WARNING** alerts you to the possibility of serious injury or death if you do not follow the instructions.
- CAUTION** A **CAUTION** alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.
- **WARNING:** **Improper installation can result in serious personal injury! Make sure that the mounting surface structural members can support a redundant weight factor *five times* the total weight of the equipment. If not, reinforce the mounting surface structural members before installing the mount.**
 - **WARNING:** **You must use proper attaching hardware and installation procedures. Failure to use proper attaching hardware and installation procedures may result in equipment damage or serious personal injury.**
 - **WARNING:** **Be aware of the potential for personal injury or damage to the unit if it is not adequately mounted.**
 - **WARNING:** **The installer is responsible for verifying that the mounting surface structural members to which the mount is anchored will safely support the combined load of all attached components or other equipment.**
 - **WARNING:** **See “WEIGHT SPECIFICATIONS” on page 2.**
 - **CAUTION** Check the unit for shipping damage before you begin the installation.
 - **CAUTION** Over-tightening mounting screws may damage your flat panel display.

WEIGHT SPECIFICATIONS

The MSP-MSBTW1 is used with several medium flat panel mounts that have weight ratings from 75 lbs (34.01kg) to 125 lbs (56.69kg).

The weight rating for the mount is specified in the instruction manual that is provided with the mount.

WARNING:

The weight of the medium flat panel display must not exceed the maximum support weight of the mount.

PARTS

Table 1 shows the parts bags that are shipped with the MSP-MSBTW1 universal interface bracket.

Table 1. Parts List

Item	Bag	Description	Qty	Notes
10	10	MSP-MSBTW1 with attached Mounting Buttons	1	See page 1 for graphic.
20	A	Phillips Head Cap Screw, M4 X 12mm	8	No spacers needed.
30		Phillips Head Cap Screw, M4 X 25mm	8	
40	B	Phillips Head Cap Screw, M6 X 12mm	8	No spacers needed.
50	C	Phillips Head Cap Screw, M6 X 25mm	8	
60		Phillips Head Cap Screw, M6 X 30mm	8	
70		Phillips Head Cap Screw, M6 X 45mm	8	
80	D	Nylon Spacer, .750 x .344 x .50	8	
90		Washer, Flat, M4	4	
100		Shoulder Washer, 6mm OD x 4.1 ID x 7mm	4	
110	E	Phillips Head Cap Screw, M4 X 50mm	4	Used with Panasonic Displays.
120		Nylon Spacer, .750 x .187 x .50	12	
130	Not labeled	Mounting Buttons	4	Used with 200mm x 200mm mounting patterns.

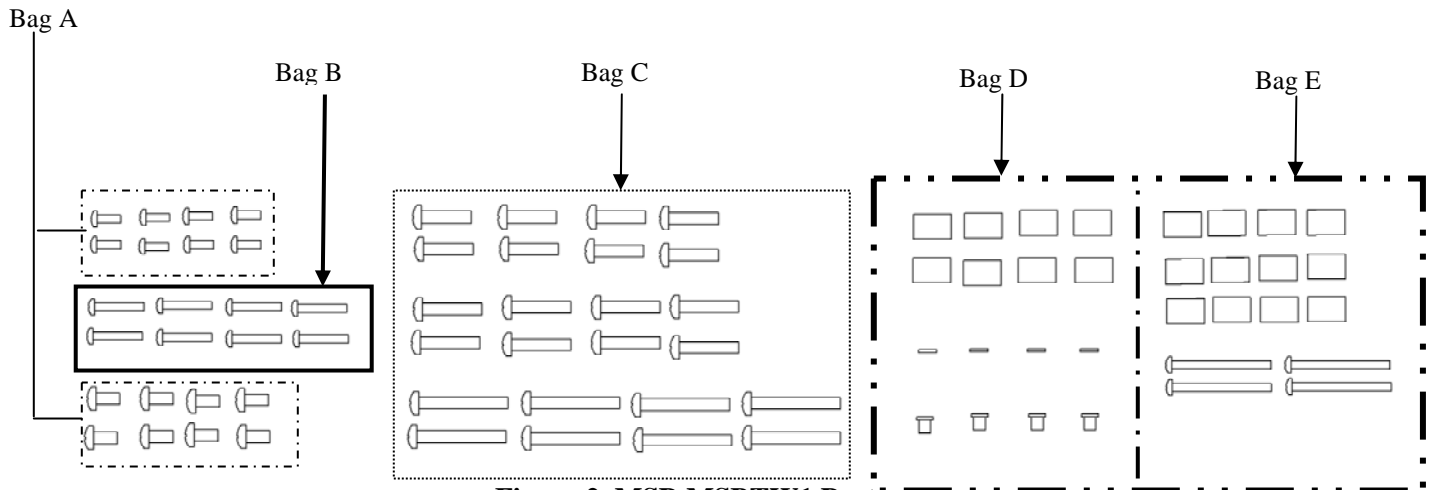

Figure 2. MSP-MSBTW1 Parts

INSPECT PARTS FOR SHIPPING DAMAGE

1. Carefully inspect the parts for shipping damage.
2. If any damage is apparent, call your carrier agent and do not continue with the installation until the carrier has reviewed the damage.

INSPECT PARTS BAGS

1. Carefully inspect the parts bags. For reference, see Table 1 and Figure 2.
2. If any components or parts are missing, contact Chief Manufacturing at 1-800-582-6480 or 952-582-6480.

NOTE: Read all assembly instructions before starting assembly.

MOUNTING HOLE PATTERNS

Table 2 provides a cross-reference list of the mounting patterns used with the MSP-MSBTW1.

The MSP-MSBTW1 is adaptable to a multitude of mounting hole-patterns that are supplied on medium flat panel displays, as shown Table 2.

Table 2. Mounting Hole Patterns

MSP-MSBTW1
Compatible with the following VESA Patterns: <ul style="list-style-type: none"> • 100 x 100mm • 200 x 100mm • 200 x 200mm (M6 and M4 screws) • 300 x 100mm • 300 x 200mm • 400 x 200mm • 13.375in x 4.75in.

INSTALLATION

The following sections describe how to install the MSP-MSBTW1 interface for a specific hole-pattern on your display.

Using Spacers with the MSP-MSBTW1

WARNING:

You must use proper attaching hardware and installation procedures. Failure to use proper attaching hardware and installation procedures may result in equipment damage or serious personal injury.

1. Lay the MSP-MSBTW1 (10) over the mounting holes on the back of the display, making sure to center the interface bracket as much as possible.

NOTES

- Spacers from Bag D (see Figure 4) may be needed if mounting holes of display are recessed or if screen has a protrusion that would require the MSP-MSBTW1 interface to be spaced away from the back of the display.
 - Select screws from Bag A or B (see Figure 3), or Bag A or C (see Figure 4) if mounting holes of display are recessed or if screen has a protrusion that would require the MSP-MSBTW1 interface to be spaced away from the back of the display.
2. Perform the appropriate procedure, *as described in the following sections*, to attach the MSP-MSBTW1 (10) to back of display.

WARNING:

The above recommendations on screw and spacer length are to be used as a guideline. You must use proper hardware size and length depending on your screen. Using improper hardware may result in equipment damage or serious personal injury.

Figure 3. For a Display without a Recess or Protrusion

Figure 4. For a Display with a Recess or Protrusion

100mm x 100mm Pattern

For the 100mm x 100mm hole pattern, do the following:

NOTE

Before starting this procedure, complete the “Using Spacers with the MSP-MSBTW1” procedure.

1. Select four M4 screws from Bag A.
2. Attach the MSP-MSBTW1 (10) using the hole-pattern on the back of your display as shown in Figure 5.
3. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

Figure 5. Display with 100mm x 100mm Hole Pattern

200mm x 100mm Pattern

For the 200mm x 100mm hole pattern, do the following:

NOTE

Before starting this procedure, complete the “Using Spacers with the MSP-MSBTW1” procedure.

1. Select six M4 screws from Bag A.
2. Attach the MSP-MSBTW1 (10) using the hole-pattern on the back of your display as shown in Figure 6.
3. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

Figure 6. Display with 200mm x 100mm Hole Pattern

300mm x 100mm Pattern

For the 300mm x 100mm hole pattern, do the following:

NOTE

Before starting this procedure, complete the “Using Spacers with the MSP-MSBTW1” procedure.

1. Select eight M4 screws from Bag A.
2. Attach the MSP-MSBTW1 (10) using the hole-pattern on the back of your display as shown in Figure 7.
3. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

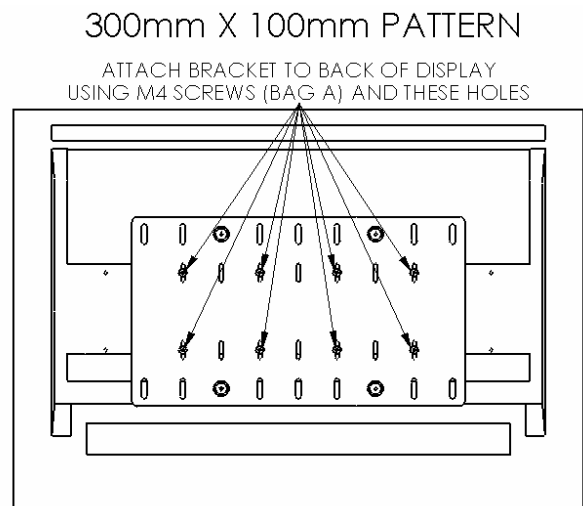

Figure 7. Display with 300mm x 100mm Hole Pattern

300mm x 200mm Pattern

For the 300mm x 200mm hole pattern, do the following:

NOTE

Before starting this procedure, complete the “Using Spacers with the MSP-MSBTW1” procedure.

1. Select eight M6 screws from Bag B or Bag C.
2. Attach the MSP-MSBTW1 (10) using the hole-pattern on the back of your display as shown in Figure 8.
3. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

Figure 8. Display with 300mm x 200mm Hole Pattern

400mm x 200mm Pattern

For the 400mm x 200mm hole pattern, do the following:

NOTE

Before starting this procedure, complete the “Using Spacers with the MSP-MSBTW1” procedure.

1. Select six M6 screws from Bag B or Bag C.
2. Attach the MSP-MSBTW1 (10) using the hole-pattern on the back of your display as shown in Figure 9.
3. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

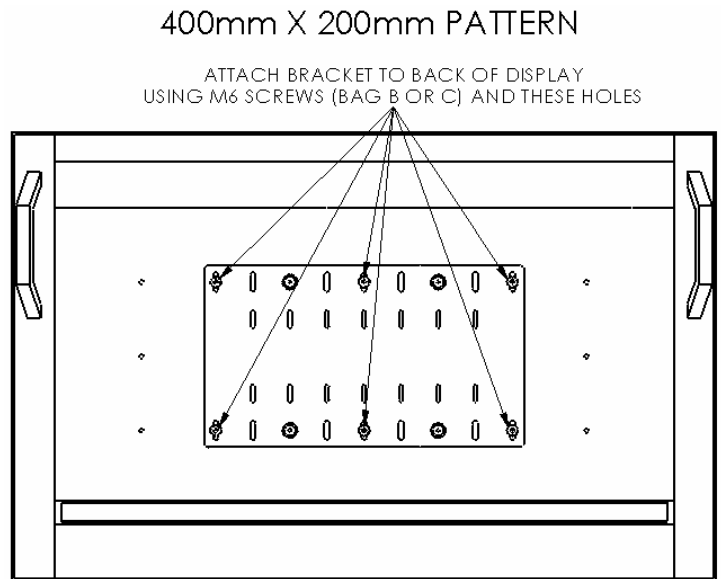

Figure 9. Display with 400mm x 200mm Hole Pattern

200mm x 200mm Pattern

For the 200mm x 200mm hole pattern, do the following:

WARNING:

You must use proper attaching hardware and installation procedures. Failure to use proper attaching hardware and installation procedures may result in equipment damage or serious personal injury.

1. Select the appropriate method, listed below, to attach the four mounting buttons (see Figure 10) to the back of your display:

- As shown in Figure 10 and Figure 11, use four M6 screws (Bag C) to attach the four mounting buttons (130) to your display.

OR

- As shown in Figure 10 and Figure 12, use four shoulder washers (Bag D), four flat washers (Bag D), and four M4 screws (Bag A) to attach the four mounting buttons (130) to your display.

OR

- If 200mm x 200mm hole pattern is shifted high on the screen (e.g., Samsung LNR-Series), attach the MSP-MSBTW1 (10) vertically with four M6 screws (Bag C) as shown in Figure 13.

2. Tighten each screw. To prevent equipment damage, do not over-tighten the screws.

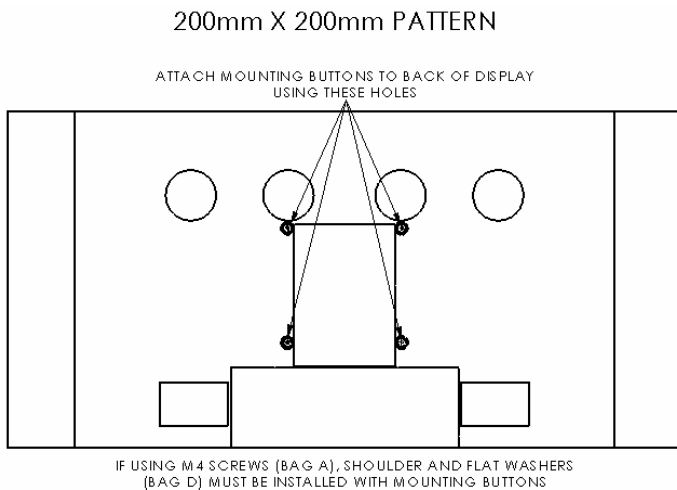

Figure 10. Display with 200mm x 200mm Hole Pattern

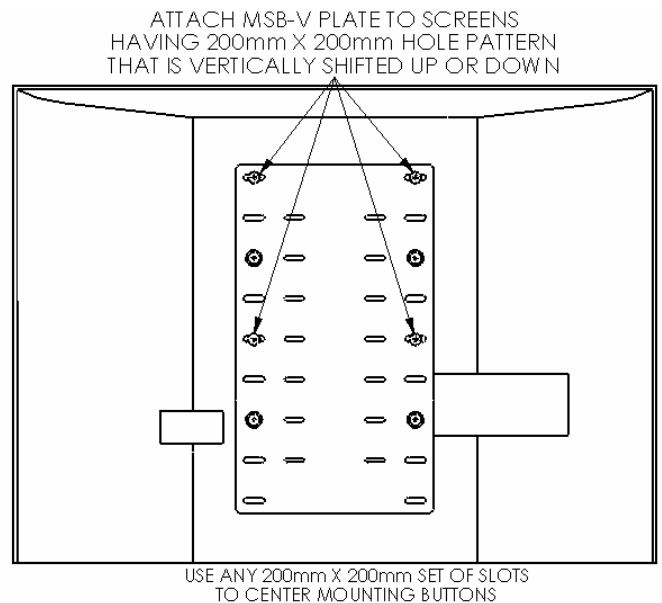

Figure 13. Attach MSP-MSBTW1 to Display with Vertically Shifted Hole Pattern

13.375 in. x 4.75 in. Pattern (Panasonic Displays)

For the 13.375 in. x 4.75 in hole pattern, do the following:

WARNING:

You must use proper attaching hardware and installation procedures. Failure to use proper attaching hardware and installation procedures may result in equipment damage or serious personal injury.

1. Select four M4 x 50mm screws from Bag E
2. Select 12 Nylon spacers .75 x .187 x .50 inch from Bag E.
3. Stack 3 spacers per hole, using the hole pattern on the back of your display, as shown in Figure 14:
4. Place MSP-MSBTW1 (10) on spacers and secure using M4 x 50mm screws

Install Display on Chief Mount

To install the flat panel display on the Chief mount, do the following:

1. Refer to the manual for proper installation procedures. If needed, use the Web to download the latest installation manual for your Chief mount. Refer to www.chiefmfg.com.
2. With the aid of another person, lift your display up to the Chief mount and align the mounting buttons on the MSP-MSBTW1 interface with the teardrop slots in the Chief mount.
3. Lower the safety latch on the Chief mount to secure your display, making sure the latch is completely engaged.

ATTACH BRACKET TO BACK OF DISPLAY USING
(4) M4 X 50MM SCREWS (BAG E),
(21) NYLON SPACERS (BAG E)
