

**MSU-1000 AND MSE-1000  
ADD-ON UNITS FOR  
MICRO-SET™ AND ADJUSTA-SET™ 1000 AND 100 SERIES**

Chief MSU-1000 and MSE-1000 Add-on units are designed to permit an additional projector to be stacked on the one tier, two tier or three tier models of MICRO-SET™ or ADJUSTA-SET™ 1000 or 100 series projector stands. More than one Add-on may be added to one stand if desired, if provisions are made to prevent accidental tipping. Special projection booth arrays of any height are possible if the appropriate bracing is provided.

**INSTRUCTIONS**

1. Remove the handle from your one, two or three tier stand and remove the black plastic caps from the top of all vertical beams.
2. Re-attach the handle to the top of the Add-on unit, using the same screws removed from the stand.
3. To attach the MSU-1000 or MSE-1000 Add-ons: Align the unit over the stand and insert the tabs into the rear vertical beams and attach with the screws provided. Attach the front crossbeam to the front vertical beams with the screws provided.
4. You are now ready to operate you Add-on unit in the same manner as your MICRO-SET™ or ADJUSTA-SET™ stands. (See stand instructions)
