| (1) | ½" X .194 X 1/2" Nylon Spacer |     |                            |

### INSTALLATION INSTRUCTIONS

1. Turn projector upside down on a flat surface.
2. Place the 1/2" nylon spacer over the center-threaded hole in the bottom of the projector so it lines up with the hole in the bracket that uses the flat head screw.
3. Place one 1/4" nylon spacer over the front, side and back threaded hole in the bottom of the projector.
4. Place the SLB-735 bracket onto the bottom of the projector lining up the four mounting holes in the bracket with the four nylon spacer on the bottom of the projector.
5. Using the M4 - 20mm flat head screw start this screw into the center-mounting hole and leave loose at this point.
6. Using the three remaining M4 X 16mm mounting screws and washers, start them into the mounting holes by hand and secure all four fasteners at this time. **CAUTION: When attaching the mount be careful not to over tighten mounting screws.**
7. See RPA and/or Smart-Lift™ Instructions.
