- (4) Screw, Phillips Flat Head, Machine, M5 x 25mm

Figure 1

NOTE: All appropriate screws (See Figure 1) come pre-installed. DO NOT attempt to substitute and USE ONLY this pre-installed hardware for interface bracket installation.

Installation Instructions

WARNING: OVER TIGHTENING OF SCREWS CAN DAMAGE PARTS AND CAN LEAD TO SERIOUS PERSONAL INJURY AND DAMAGE TO EQUIPMENT! DO NOT over tighten screws when installing interface brackets.

1. Turn projector upside down on a flat surface.
2. Place spacers over appropriate threaded inserts on bottom of projector.
3. Place the interface bracket onto the spacers, aligning the mounting holes in the bracket with the spacers and threaded inserts in the bottom of the projector and ensuring that triangle in bracket points towards front of projector.
4. Determine proper size screws to use with projector.

IMPORTANT ! : Using screws of improper size may damage the projector. Properly sized screws will easily and completely thread into projector threaded inserts. See Figure 1 for proper placement of M4 and M5 screws.

5. Position mounting screws through bracket, spacers and into appropriate threaded inserts in the projector. Tighten all fasteners at this time, securing the bracket to the projector.
